CONTENTS

Volume 18 | Number 3 | 2022

THEME

5 The value of small-scale fisheries

About so much more than poverty and protein

8 Traditional fishing methods of Africa

And why these methods need to be conserved

12 Estuarine fisheries

Where salt water, fresh water and people meet

15 Invasion of the Nile tilapia

Mapping the spread in Limpopo and Mpumalanga

17 A new way to count great white sharks

A project involving cuttingedge analysis using great white shark DNA provides a new way to monitor them

19 The potential for using forward contracts for fish stock

In an uncertain world, forward contracts provide a potential hedge against future uncertainty

FEATURES

21 Women, STEMI, and Career Scientist Barbie dolls

In honour of Women's Month, we look at current statistics and trends

26 Edible insects? How smart!

You might be surprised at how clever a solution insect farming actually is.

29 Rooibos skincare revitalised by nano-tech

New Rooibos phytosome to be developed for cosmetic application

31 Cervical cancer is a disease of inequity

Here's how to save 60 million lives

33 Young scientist Interview: Rubbing shoulders with Nobel laureates

We spoke with Dr Gugu Kubheka about her journey as a young scientist

35 The "How to get ahead during and after school" series

Part 2 - Taking things seriously in Grade 11
