

The [South African Journal of Science](#) is a scholarly open access, multidisciplinary journal published bimonthly by the Academy of Science of South Africa. The Journal's mandate is to publish original research with an interdisciplinary and regional African focus, as well as to provide a forum for the discussion of news and developments in research and higher education.

As a multidisciplinary journal, the Editorial Board comprises ten, part-time, discipline-specific Associate Editors who are responsible for managing the peer review of manuscript submissions in their respective research fields.

---

The *South African Journal of Science* is offering a one-year mentoring opportunity for early career academics or researchers who wish to gain valuable editorial experience working closely with an Associate Editor. The mentorship is open to **emerging South African researchers who hold a PhD in the field of Agriculture & Forestry**. Applicants may be based anywhere in South Africa and should have a publication record, but previous editorial experience is not required.

Applications should be submitted to [sajs@assaf.org.za](mailto:sajs@assaf.org.za) and must include:

- The mentorship for which you are applying (Agriculture & Forestry)
- A CV that includes a list of published papers
- Names and contact details of three referees
- A motivation detailing your suitability as a candidate, your aspirations for the *South African Journal of Science*, and your expectations of the mentorship

The mentorship is a part-time position and can be performed as part of academic responsibilities.

Enquiries: [sajs@assaf.org.za](mailto:sajs@assaf.org.za) or 012 349 6616

Applications close on **21 June 2019**. Candidates will be notified of the outcome by end of June 2019.
